

Repeat Signage - a picture paints a thousand words at Our Lady's Convent School

Our Lady's Convent School (OLCS) is one of Loughborough's oldest independent schools, set in extensive peaceful, walled grounds. Founded on Catholic principles in 1841, the school relocated to its present site in April 1850, and is co-educational from ages 3 to 11 and girls only for Senior School and Sixth Form (11 to 18). At OLCS, their philosophy is based on strong traditional family values and students are supported and encouraged to appreciate the rewards of hard work and success and also to have fun and be happy throughout their schooldays. www.olcs.leics.sch.uk

"We think Repeat Signage is marvellous. We're delighted with the support offered and when we've encountered a glitch their team have bent over backwards to help.

We currently use the software on a screen in our main school reception. The screen is personalised with our logo and a dynamic date. Images are uploaded with captions to give visitors and students a flavour of life at the school - a picture speaks a thousand words! When I have time I update the screen weekly with a mixture of photos from the previous week, to keep it fresh and the details of events and activities happening this week. When time is tight, such as this term, I periodically create a scrolling picture show which illustrates the range of activities, ages and genders we welcome in to school.

The software is so easy to access and change that if we have a VIP visiting, I can quickly format the screen to welcome them, making it an extra special welcome." Alexa Derbyshire

Repeat Signage 2014 edition has new features added including support for Microsoft XPS files, a controller which allows other control's play lists to be synchronised and a new type of play list that plays presentations faster. The software is so easy to use you can have a simple presentation up and running in minutes. Download an evaluation at www.repeatsoftware.com/downloads.aspx
