

# Repeat Signage - a vital tool at Wychwood

Wychwood School, Oxford, is a unique day and boarding school for girls 11-18 years which, in the words of their founder Miss Lee, aims to provide an education 'for genuine girls not imitation boys'. The small school size offers individual challenge and pastoral care to a far greater extent than can larger institutions. As a result their girls gain excellent academic results and emerge confident and well prepared for their futures...

“The Repeat Signage has become a useful resource and a vital tool at Wychwood. It is used both in a display/presentation aspect as well as presenting up-to-date daily school information updates. It is linked to our school website as well as featuring photographs and news from recent events... from exam results and particular students achievements to sports results and features on particular subjects or relevant trips. It is also used to preview important curriculum support such as Habits of Mind themes and also Thought for the Week topics for daily assembly. It is also used to feature the broad range of artwork and photography/film work by the students.” Justin Mott, Wychwood School.

# Repeat Signage V4

Repeat Signage digital signage software helps you get your message across to promote your product or service. It is easy to use and you can create a presentation and have it playing in minutes. You just need a Windows based PC, a large display screen and Repeat Signage. Features include touch screen support, remote updating and scheduling of presentations, and it supports Windows 10, 8/8.1, 7, Vista and XP.

You can also include PowerPoint presentations to schedule when viewed, page turning PDFs, Excel spreadsheets and documents.
